ISSUE	TITLE	EPISODE	DATE	TIME	Duration	DESCRIPTION								
Local History	Where Stories Live	102	1/1/2026	19:00	0:26:46	Now in its third season, WCTE's newest locally produced series, Avery Hutchins, host and WCTE CEO, talked with Todd Mayo, the creative mind behind the hit PBS show, The Caverns Sessions; and she plumbed the depths of Darren Shell, an Overton County author, historian, folklorist and storyteller; and she travelled to the African-American community of Free Hill, in Clay County, the former home of local legend Bud Garrett, a talented musician and a self-taught inventor. In the previous two seasons, Avery explore the importance of Native American culture in the modern Upper Cumberland; visited with a mechanical engineer who persevered through homelessness; and local athlete who transitioned from sports to ballet; explored the experience of African American veterans in Putnam County, dating back to the Civil War; and documented the life journey of local resident and acclaimed singer/songwriter Darrell Scott.

In the decade leading up to 1945, it's estimated that the Nazis stole one-fifth of all artwork in Europe - the majority from Jewish families and other "undesirables" - in a culture war that was designed to rewrite European history. But that was just the beginning. Secret networks of curators and dealers - many of them Nazis like Bruno Lohse (the Plunderer) - made fortunes on the back of Nazi-looted art, perpetuating a decades-long war crime that has never been fully exposed or resolved. Through interviews with gallery owners, curators, art investigators, Lohse's close friends, and the descendants of the victims of Nazi art theft, along with a tour through breathtaking masterpieces and an extensive archive of personal letters, the dark underbelly of the international art world is revealed.

Segment Length: 00:50:41

In the 1970s, disco dominated American pop music. A major stylistic departure from rock, its rise to the top of the charts signaled a cultural shift that some found threatening. Disco's roots lay in the urban subculture, and the artists who created it were largely African American and Latino. In the gay dance clubs where it flourished, disco was much more than music -- it was an expression of pride. To others, disco was anathema. Chicago DJ Steve Dahl, who lost his job when his rock radio station changed to an all-disco format, gave voice to disco-haters by holding "death to disco" rallies. On July 12, 1979, the Chicago White Sox featured Dahl at a "Disco Demolition" event that turned violent; Chicago police in riot gear were summoned to restore the peace. The event became a flashpoint in the culture wars of the 1970s. "The War on Disco" explores the movement that gave rise to disco music, and the backlash that tried to destroy it.

For almost two thousand years, the story of Jesus' final days has been celebrated by Christians the world over. From Jesus' triumphant entry into Jerusalem, through to his eventual crucifixion six days later, the key moments have been immortalized in countless films, pieces of music, and works of art. But in recent years, some historians have begun to question inconsistencies in the Gospels' version of events. They believe that the Gospels could hide a very different story; one that casts the historical Jesus in an entirely new light. Based on a new interpretation of contemporary historical events in Rome, "Last Days of Jesus" peels back thousands of years of tradition, to explore a new political context to the events in Jerusalem. "Last Days of Jesus" explores how dramatic political events in Rome could have played a crucial role in shaping Jesus' destiny, and examines an extraordinary political alliance that altered the course of history.

For almost two thousand years, the story of Jesus' final days has been celebrated by Christians the world

over. From Jesus' triumphant entry into Jerusalem, through to his eventual crucifixion six days later, the key moments have been immortalized in countless films, pieces of music, and works of art. But in recent years, some historians have begun to question inconsistencies in the Gospels' version of events. They believe that the Gospels could hide a very different story; one that casts the historical Jesus in an entirely new light. Based on a new interpretation of contemporary historical events in Rome, "Last Days of Jesus" peels back thousands of years of tradition, to explore a new political context to the events in Jerusalem. "Last Days of Jesus" explores how dramatic political events in Rome could have played a crucial role in shaping Jesus' destiny, and examines an extraordinary political alliance that altered the course of history.

For over two centuries, archaeologists have hailed Pompeii as a sophisticated city at the heart of an advanced ancient civilization. But a series of new excavations is painting a much more complex picture of the city tragically buried by the eruption of Mount Vesuvius in the year 79. New archaeological finds including 2,000-year-old lines of graffiti, human remains, and artifacts from ancient homes and businesses are revealing a city of both staggering wealth and poverty, dependent on slavery, and riven by political rivalries, violence, and riots. Even before Vesuvius rumbled, the jewel of the ancient Roman Empire hid a very dark side.

President Trump's decision to freeze refugee processing left thousands in limbo. For more than a year, 1,100 Afghan refugees who thought they were bound for the United States have been stranded on a disused military base in Qatar. Now, having fled one war, they're trapped in another and caught in the crosshairs of Iran's ballistic missile attacks. Special correspondent Leila Molana-Allen reports.

Minnesota continues to deal with the fallout from the monthslong federal immigration crackdown. Even though the number of agents in the state has dwindled, many immigrants in Minnesota say they remain fearful. As special correspondent Fred de Sam Lazaro reports, that includes those who entered the country legally, and some on the path to citizenship.

Bella Abzug was a trailblazing symbol of hope. In 1970, she entered Congress ready for a fight. With her trademark hat and Bronx swagger, the first elected Feminist upended the Washington patriarchy, battling for women's equality, civil rights, and LGBTQ+ protections. Despite Nixon and the FBI's attempts to silence her, Bella persisted - revolutionizing the blueprint for America. In a time when few women held national office, Bella was at the forefront of institutional change. Yet, as the film examines, Bella's approach may have also been her downfall. As her profile rose, there were those who saw a threat to well-entrenched establishment politics. When Bella attempted to desegregate the all-male US Senate in 1976, the resistance was so strong that we are forced to consider whether there was a larger coordination at work. She battled that structure year after year in nailbiter campaigns - fighting presidents, senators, mayors, and even The New York Times. Features interviews with Nancy Pelosi, Hillary Clinton, Barbra Streisand, Lily Thomlin, Maxine Waters, among others
